Thymus and immunity (Blattner), 445
Thyroid dysfunction associated with increased serum thyroxine-binding protein in 12-year-old girl (Ferrier and Lemarchand-Béraud), 190
Thyroxine-binding protein in 12-year-old girl, thyroid dysfunction associated with increased serum (Ferrier and Lemarchand-Béraud), 190
Toxoplasmosis, recently acquired, in child (Blattner), 795
Tracheobronchial secretions in cystic fibrosis of pancreas, effect of N-acetylcysteine on viscosity of (Reas), 31
Translocation, unusual, in Mongolism (Zellweger, Mikamo, and Abbo), 225
Trisomy 17-18 syndrome, observations on pathology of (Townes et al.), 703
  D_1, syndrome (Smith et al.), 326
Tropical pediatrics: Alterations in serum concentration of vitamin A associated with the hypoproteinemia of severe protein malnutrition (Arroyave et al.), 920
  Breast-feeding, weaning, and acculturation (González), 577
  Feeding value of soy milks for premature infants (Omans, Leuterer, and György), 98
Transfusion, placental, size of, and birth asphyxia related to atrial pressures and cardiac size in newborn infant (Burnard and James), 815
Tuberculosis, childhood, needle biopsy of liver in various forms of (Choremis et al.), 197
Tularemia in children (Hughes), 495
Tumor, dermoid, of posterior fossa associated with congenital dermal sinus (Altman), 565
  germinal, in young infants (Blattner), 946
Twinning, Klinefelter's syndrome, and Down's syndrome (Mongolism) in same sibship (Wright et al.), 217
Tyrosine metabolism in full-term sibling of child with phenylketonuria, delayed maturation of (Auerbach et al.), 938
  and phenylalanine, plasma, levels in phenylketonuria, variations with age in (Partington and Lewis), 348

U

Ulcers, peptic, children with (Blodgett, Morris, and Lurie), 280 (abst.)
Upright T waves in V_1 and V_2 during first months of life, vectorcardiographic significance of (Castellanos, Lemberg, and Castellanos), 827
Urinary bladder, eosinophilic granuloma of (CPC), 941
  excretion of 3, 4-dihydroxyphenylalanine (DOPA) in two children of short stature with malnutrition (Copps et al.), 208
Urinary—Cont'd
  and plasma etiocholanolone, increased, and related steroids in boy with virilizing adrenal hyperplasia and periodic fever (Cara et al.), 521
  vanilmandelic acid (VMA) excretion in children: use of simple semiquantitative test (Young et al.), 844

V

V_1 and V_2 during first months of life, vectorcardiographic significance of upright T waves in (Castellanos, Lemberg, and Castellanos), 827
Vaccinia virus infection in humans, hypersensitivity in pathogenesis of (Pincus and Flick), 57
Valvulitis, rheumatic pericarditis, and myocarditis (CPC), 607
Vanilmandelic acid (VMA), urinary, excretion in children: use of simple semiquantitative test, in (Young et al.), 844
Varicella bullosa (Seigerman and Zonis) (BCLO), 302
Vectorcardiographic significance of upright T waves in V_1 and V_2 during first months of life (Castellanos, Lemberg, and Castellanos), 827
Virilizing adrenal hyperplasia and periodic fever, increased urinary and plasma etiocholanolone and related steroids in boy with (Cara et al.), 521
Virus of chickenpox and measles, simultaneous infection with (Artenstein and Weinstein) (BCLO), 156
